The Perry Family has been serving the residents and visitors since 1971. Maria's Garden offers guests a quaint and comfortable Bed & Breakfast Inn. Amenities range from claw-foot tubs, hardwood floors, front porch with swing, cable TV, air conditioning, whirlpool tubs, private showers, and fireplaces. Guests enjoy a full country breakfast served in the Garden Room where you will enjoy the Garden in the spring and fireplaces in the winter.

Peg Perry's culinary talents have become world-renowned and are just the answer to excite your taste buds. You may choose from three separate dining rooms to partake of the many delectable dishes. So whether it's her famous red pasta sauce or homemade apple dumplings, everyone leaves with a full tummy and a smile.

Maria's Garden is centered on three Grottos depicting apparitions of the Virgin Mary from three countries. Guests continue to bring relics, icons, pictures, and statues from the world over. These precious gifts are displayed throughout the dining rooms and inn, thus creating the Marian Museum.
